

ELECTRICAL ENGINEER (TEMPORARY)

ST. JOHN'S— CLOSING DATE: OCTOBER 15, 2018

COMPETITION NUMBER: NPJP-2018-18534

Are you ready to explore an exciting career in a fast-paced, high-performance environment?

If you are seeking a challenging and rewarding career with room for continuous advancement and a competitive compensation package, have we got an opportunity for you! We are looking for a highly motivated team player with a strong commitment to safety and customer service, an excellent work ethic, and effective interpersonal and communication skills.

As a valued member of our Engineering Team, you will be responsible for the planning, design and construction of the power system, including equipment specification/selection, and protection and control schemes for generation and substation configurations. All engineering work will meet applicable industry standards for safe and reliable operation of the electrical system.

Your qualifications include a Bachelor's degree in Engineering (Electrical), supplemented by two to five years' experience in an electrical utility environment. You must be eligible for registration as a Professional Engineer with PEGNL. You are proficient in the use of Microsoft products and are familiar with AutoCAD Electrical. You have strong planning, analytical and organizational skills and have the ability to work in a team environment as well as on your own. You must hold and maintain a valid driver's license.

Apply online at newfoundlandpower.com/About-Us/Careers/Career-Opportunities.

We thank all applicants for their interest but only those selected for an interview will be contacted.

WHENEVER. WHEREVER.
We'll be there.
