

ENGINEER (ELECTRICAL)

ST. JOHN'S— CLOSING DATE: JANUARY 25, 2019

COMPETITION NUMBER: NPJP-2019-20145

Are you ready to explore an exciting career in a fast-paced, high-performance environment?

If you are seeking a challenging and rewarding career with room for continuous advancement and a competitive compensation package, have we got an opportunity for you! We are looking for a highly motivated team player with a strong commitment to safety and customer service, an excellent work ethic, and effective interpersonal and communication skills.

As a valued member of our Engineering Team, you will be responsible for the design and construction of substations, including protection and control schemes, equipment specification/selection and substation layouts. All engineering work will meet applicable industry standards for safe and reliable operation of the electrical system.

Your qualifications include a Bachelor's degree in Engineering (Electrical), supplemented by at least 3 years' experience in an electrical utility environment with exposure to engineering, construction, operation and maintenance of the electrical system. You must be eligible for registration as a Professional Engineer with PEGNL. You are proficient in the use of Microsoft products and are familiar with AutoCAD Electrical. You have strong analytical and project management skills and are able to execute technical tasks with particular attention to detail. You must hold and maintain a valid driver's license.

Apply online at newfoundlandpower.com/en/About/Careers/Career-Opportunities.

We thank all applicants for their interest but only those selected for an interview will be contacted.

WHENEVER. WHEREVER.
We'll be there.
