

ENTERPRISE ARCHITECT - IT SOLUTIONS DELIVERY

ST. JOHN'S – CLOSING DATE: APRIL 22, 2019

COMPETITION NUMBER: NPJP-2019-22426

Are you ready to explore an exciting career in a fast-paced, high-performance environment?

If you are seeking a challenging and rewarding career with room for continuous advancement and a competitive compensation package, have we got an opportunity for you! We are looking for a highly motivated team player with a strong commitment to safety and customer service, an excellent work ethic, and effective interpersonal and communication skills.

As a valued member of our Technology Team, you will be responsible for the overall Enterprise Architecture direction and standards development for IT applications and infrastructure. You will collaborate with internal business stakeholders to evaluate and align business requirements with technology solutions; provide guidance to team members in systems design throughout the various phases of project delivery; make recommendations on new technology acquisitions; and provide guidance and advice on infrastructure procurement, configuration, and operational best practice. In addition, you will provide input and help establish guidelines for application development and enterprise applications deployment with a strong security and compliance focus.

Your qualifications include university degree or college diploma in Information Technology or a related field, supplemented by a minimum of 5 to 8 years' experience in enterprise systems, infrastructure design and strategic technology portfolio management. You have a proven track record in delivering Enterprise Architecture strategies for large organizations and enabling business process change and improvements. You possess excellent leadership and facilitation skills and you thrive in a multi-project environment where you transition quickly between work tasks. A professional technology certification or designation is an asset.
