CAREER OPPORTUNITY

ENGINEERING TECHNOLOGIST (TEMPORARY)

CLARENVILLE – CLOSING DATE: JULY 19, 2019

COMPETITION NUMBER: NPJP-2019-24473

Are you ready to explore an exciting career in a fast-paced, high-performance environment?

If you are seeking a challenging and rewarding career with room for continuous advancement and a competitive compensation package, have we got an opportunity for you! We are looking for a highly motivated team player with a strong commitment to safety and customer service, an excellent work ethic, and effective interpersonal and communication skills.

As a valued member of the Regional Engineering Team you will be responsible for: designing and managing overhead and underground line construction; providing technical leadership to construction crews and contractors; interacting with customers, councils and other regulatory bodies; preparing estimates and material lists for job preparation; preparing engineering reports to identify, evaluate, and make recommendations for system upgrades to improve the operability of the power system; and, assisting with the design and execution of other distribution engineering projects as required.

Qualifications include a diploma in Electrical Engineering Technology. You must hold and maintain a valid motor vehicle driver's license. Proficiency with Microsoft Office applications and AutoCAD is necessary. You have excellent planning and organizational skills and the ability to execute technical tasks with particular attention to detail. There is a residency requirement for this position, whereby your primary residence must be within 40 km of the Clarenville office.

Apply online at newfoundlandpower.com/en/About/Careers/Career-Opportunities. We thank all applicants for their interest but only those selected for an interview will be contacted.

WHENEVER. WHEREVER.
We'll be there.
